

## **EXHIBIT**

### **Form 442 Question 4: Government Project Description**

The system is an RF Technology breakthrough creating unprecedented, stand off, non-lethal capabilities at ranges beyond effective small arms range.

This system was previously licensed by FCC as STA OET license WB9XMU.

The band width for this demonstrator system is +/- 0.02 GHz centered around a fixed frequency between 94.1 to 95.0 GHz
